Publication Date: September 9, 2025	Version: 1.0.2	

I. Purpose

The privacy, security and integrity of Health and Social Services Information exchanged under the California Health & Human Services Data Exchange Framework ("Data Exchange Framework") are essential. To help maintain the privacy, security and integrity of Health and Social Services Information and promote trust among Participants, each Participant shall notify certain other Participants and the California Department of Health Care Access and Information ("HCAI") of a Breach. The purpose of this policy is to set forth the procedure by which Participants will fulfill their Breach notification obligations under the Data Sharing Agreement (the "DSA").

II. Policy

Breaches can be very serious events with potential for serious impact on Participants and the individuals whose Health and Social Services Information is breached. This policy requires each Participant to identify, notify, investigate and mitigate any Breach and, when detection of a Breach has occurred, to notify HCAI and any Participants impacted by the Breach in accordance with the procedures herein.

This policy shall be effective upon publication.
