DxF Updates

- **The DxF 2025 Participant Survey is here!**
    - CDII is excited to announce that it is releasing the Data Exchange Framework 2025 Participant Survey! Here, Participants will be able to complete a short, quick, and anonymous survey on data exchange in California. This can help shape implementation of the DxF and ensure that we reach the ambitious goal of real-time and meaningful data exchange for all Participants.
    - [Take the survey today!](#)
- **We're requesting your input!**
    - CDII wants to highlight initiatives advancing interoperability across the state. We welcome opportunities to share updates on funding, innovations, and news related to interoperability. Our goal is to strengthen information sharing across organizations, helping participants stay informed and connected to key developments in the field.
    - If you have relevant insights, opportunities, or announcements, we'd love to hear from you! Let's work together to drive impactful, data-informed collaboration. Please email dxf@chhs.ca.gov to share!

COMMUNITY SANDBOX:

- **Reminder to sign up for the DxF Community Sandbox to explore and plan your data exchange.** The DxF Community Sandbox includes tools to identify potential data sharing partners, minimum datasets and synthetic data, and implementation guidance for high-priority use cases. Currently available use cases include ED care transitions, housing referrals, and ECM care coordination. Justice Involved and reproductive health privacy use cases will be coming in the near future. Create a free account to access these resources on the [DxF Community Sandbox portal.](#)

- **Help shape what comes next.** The C4BH team is constantly expanding the DxF Community Sandbox's technical capabilities to better support organizations that are either new to data sharing, or exploring how to share new types of data for emerging use cases. If you're navigating complex technical decisions, wrestling with integration testing, or unsure how to operationalize elements of the DxF, they want to hear from you! Your feedback will help shape resources that meet real-world needs—so please don't hesitate to share your experiences with them at info@connectingforbetterhealth.com.
