DxF Bi-Weekly Update

The Center for Data Insights and Innovation (CDII) is providing this bi-weekly communication to provide important updates and information on the Data Exchange Framework (DxF).

DxF Updates

- A key goal in CDII's DxF three-year roadmap is to establish a statewide structure for communicating significant events to all authorized DxF Participants that request them. As a step towards this goal, CDII has posted a Request for Information (RFI) for a statewide service that both providers and recipients of events, such as admissions and discharges, can use to manage requests for notifications of those events. **If you are interested in commenting on if or how such a service might be created, please respond to the RFI or share with others in your network who may be interested. Responses to the RFI are due December 20, 2024.**
- CDII has released a draft of the DxF Roadmap for public comment. CDII developed this DxF Roadmap to identify and communicate a set of DxF implementation priorities and proposed steps and milestones to implement them through 2027. **Responses to public comment** are due December 9, 2024.

DSA SIGNATORY GRANTS:

- Interested in sharing how a DSA Signatory grant award has benefited your organization? Please email us at cdiigrants@chhs.ca.gov. CDII would like to spotlight how grant funding was used to supplement your organization's data exchange capabilities. Please respond by **Friday, November 29th** if you are interested.
- PCG is hosting a DSA Signatory Grantee Office Hour on **Friday, December 6, 2024** from **12:00 pm - 1:00 pm PT** to provide a demo on how to submit the required quarterly progress report in the **DxF Grants Portal**. We will answer questions on milestones, progress reports, and payments. Please visit the following link to register for office hours.

PARTICIPANT DIRECTORY:

- **Did you know** that a choice of OTHER in the Participant Directory signals to CDII that the HIE network, HIO, or technology a DxF participant has chosen to use is not yet listed as an option in the portal? So far, CDII has added two additional organizations that may assist DxF participants with exchange in response to the selection of OTHER and the information about the entity provided to CDII.
- For assistance with Participant Directory questions, please email

QHIO PROGRAM:

- CDII has added two new resources to the *Qualified HIO Program* section of the CDII DxF webpage.
  - Within the *Program Oversight* dropdown, you will find the Maintaining Qualified Status document. This document details the processes that CDII will follow to conduct compliance reviews of QHIOs.
  - Within the *Change Management* dropdown, you will find the Change Management Process document. This document details the processes that CDII will follow as future changes to the QHIO Program are released.

POLICIES AND PROCEDURES:

- CDII has posted a proposed amendment to the Data Elements to Be Exchange P&P for public comment. This amendment proposes to advance requirements for DxF participants to exchange the US Core Data for Interoperability (USCDI) from version 2 to align with the version required by the U.S. Assistant Secretary for Technology Policy/Office of the National Coordinator for Health Information Technology (ASTP/ONC). **Responses to public comment** are due January 2, 2025.
- To review all P&Ps, refer to the Policies and Procedures subsection of the CDII DxF webpage.
